RMM Power & Energy Limited at a Glance

Company Overview

Established 19 May 2010 — Dhaka, Bangladesh	Sector Natural Gas, Energy & Infrastructure
Core Market Bangladesh	International Track Record Local representative supporting Gazprom International in Bangladesh's gas development programme
Gas Wells Supported 17 wells across Bangladesh's principal gas fields	Gas Supply Contribution ~256 MMcfd added to the national grid

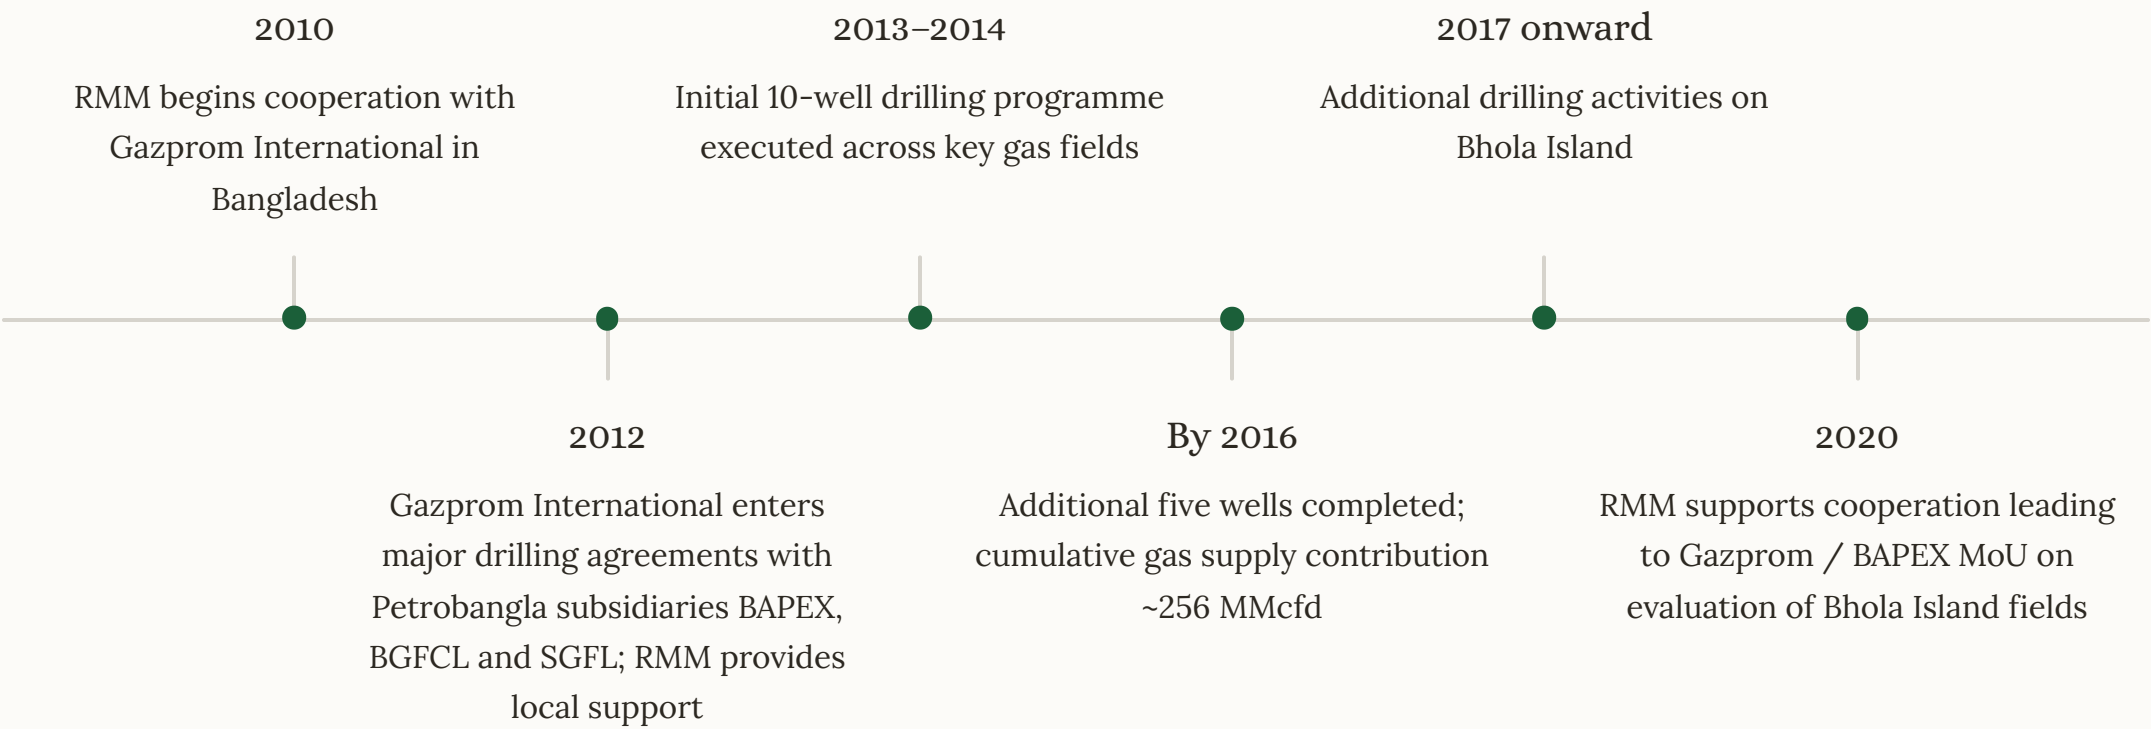

Core Capability Areas

RMM's capabilities span the full gas value chain — from upstream exploration and drilling through to LNG import and commercial operations.

Proven Track Record with an International Energy Major

RMM served as the local representative of Gazprom International in Bangladesh, providing on-the-ground support for the development and execution of major gas-well drilling programmes across the country.

 **RMM understands how to support an international energy company operating within Bangladesh's state-controlled gas sector.**

Bangladesh Gas Development Track Record

17

Gas Wells

Supported across Bangladesh's principal producing fields

256

MMcfd

Contributed to the national gas grid

Key Counterparties

BAPEX BGFCL SGFL

Principal Field Areas

Titas · Rashidpur · Srikail · Shahbazpur · Bhola · Begumganj · Semutang · Bakhrabad

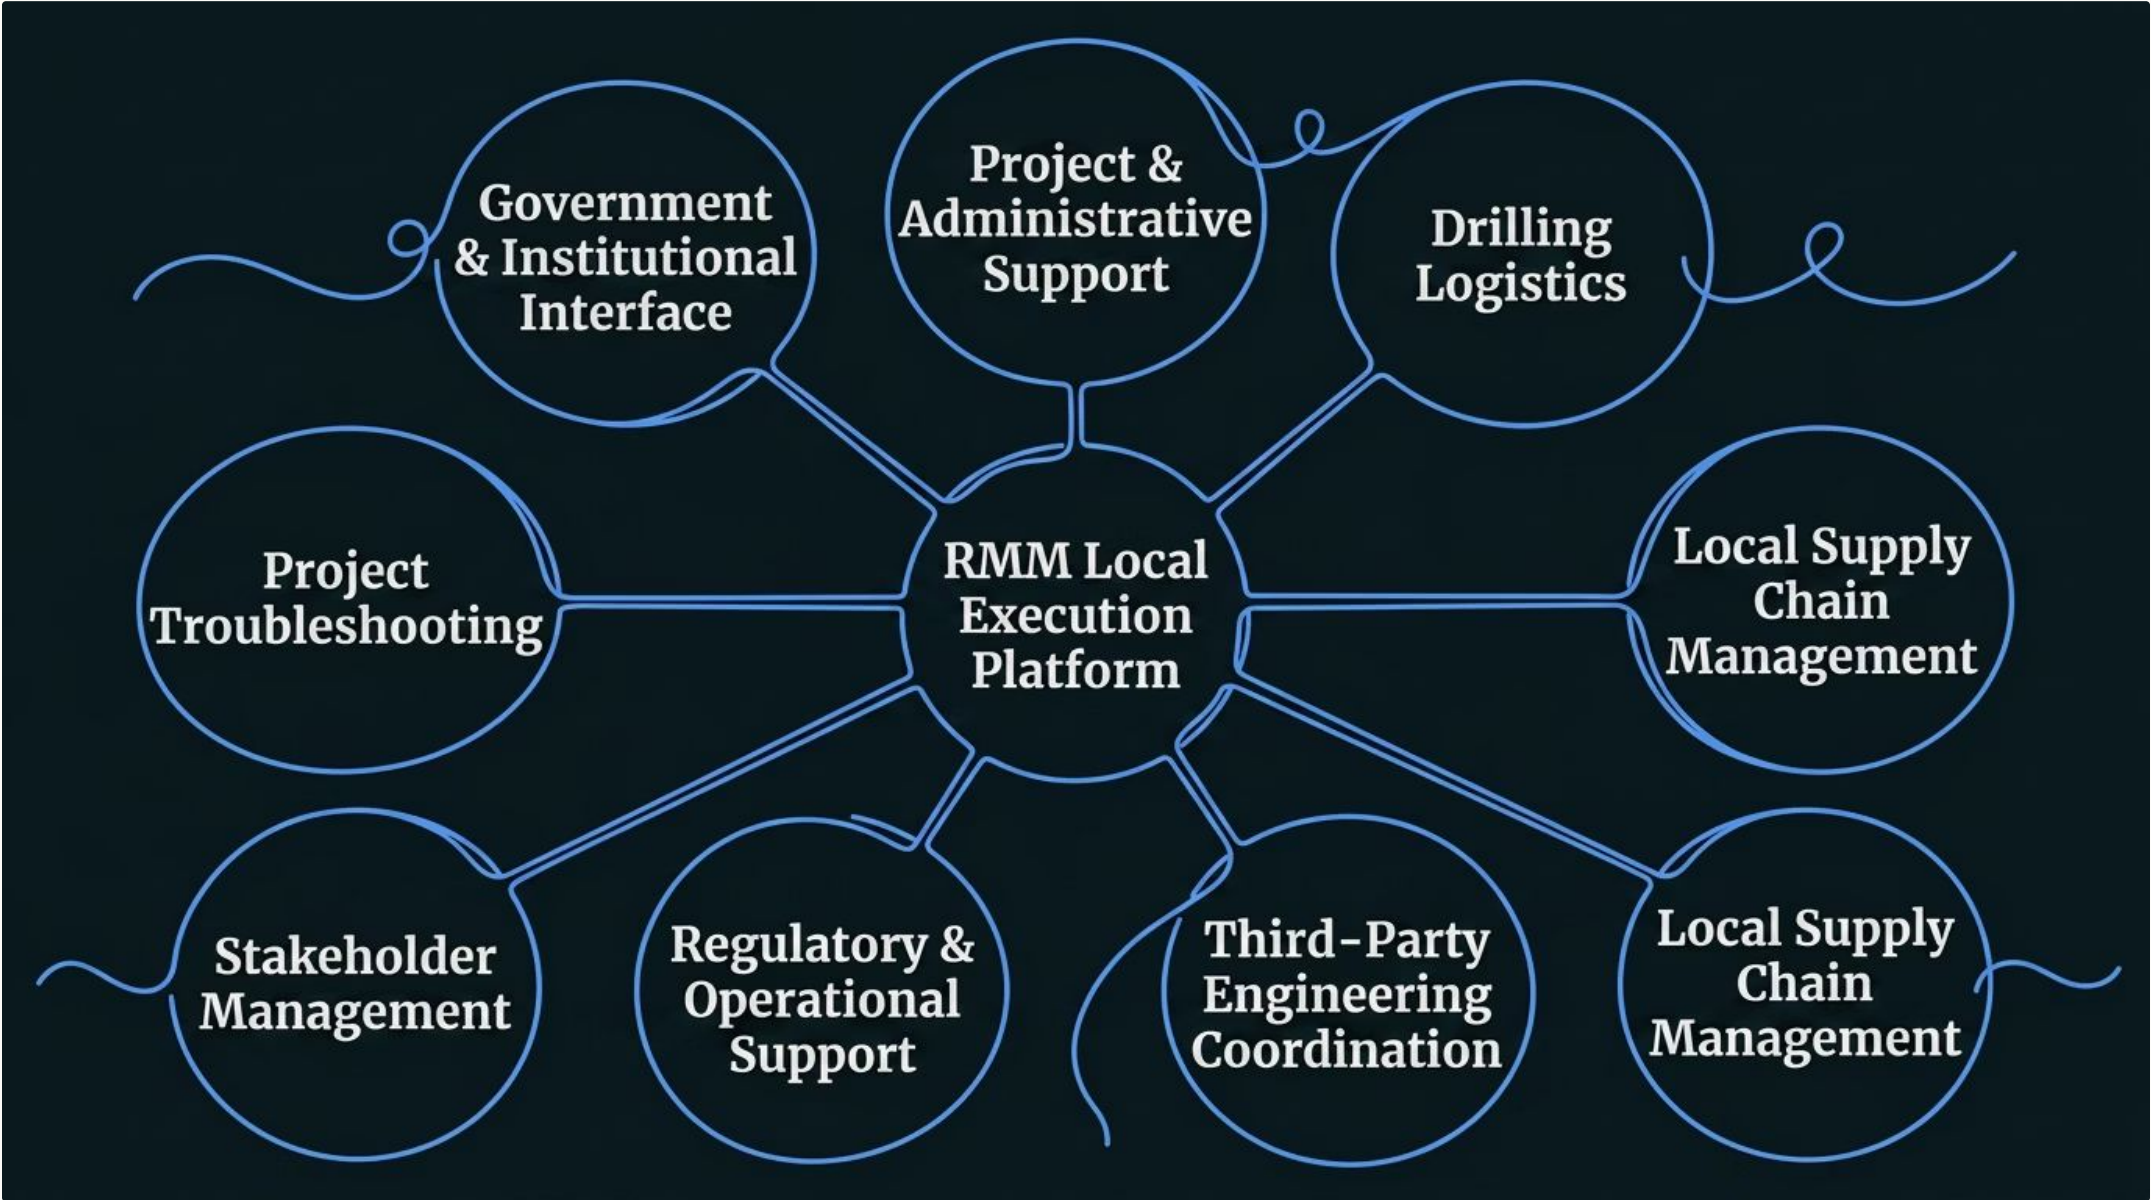

Scope of Support Delivered

Rig Mobilisation End-to-end rig mobilisation and demobilisation logistics across all field areas	Government Coordination Interface with Petrobangla entities and relevant government authorities throughout drilling programmes	Third-Party Engineering Coordination with specialist engineering and oilfield service companies
Local Supply Chain Materials handling and local supply chain management

Local Execution Platform for International Energy Companies

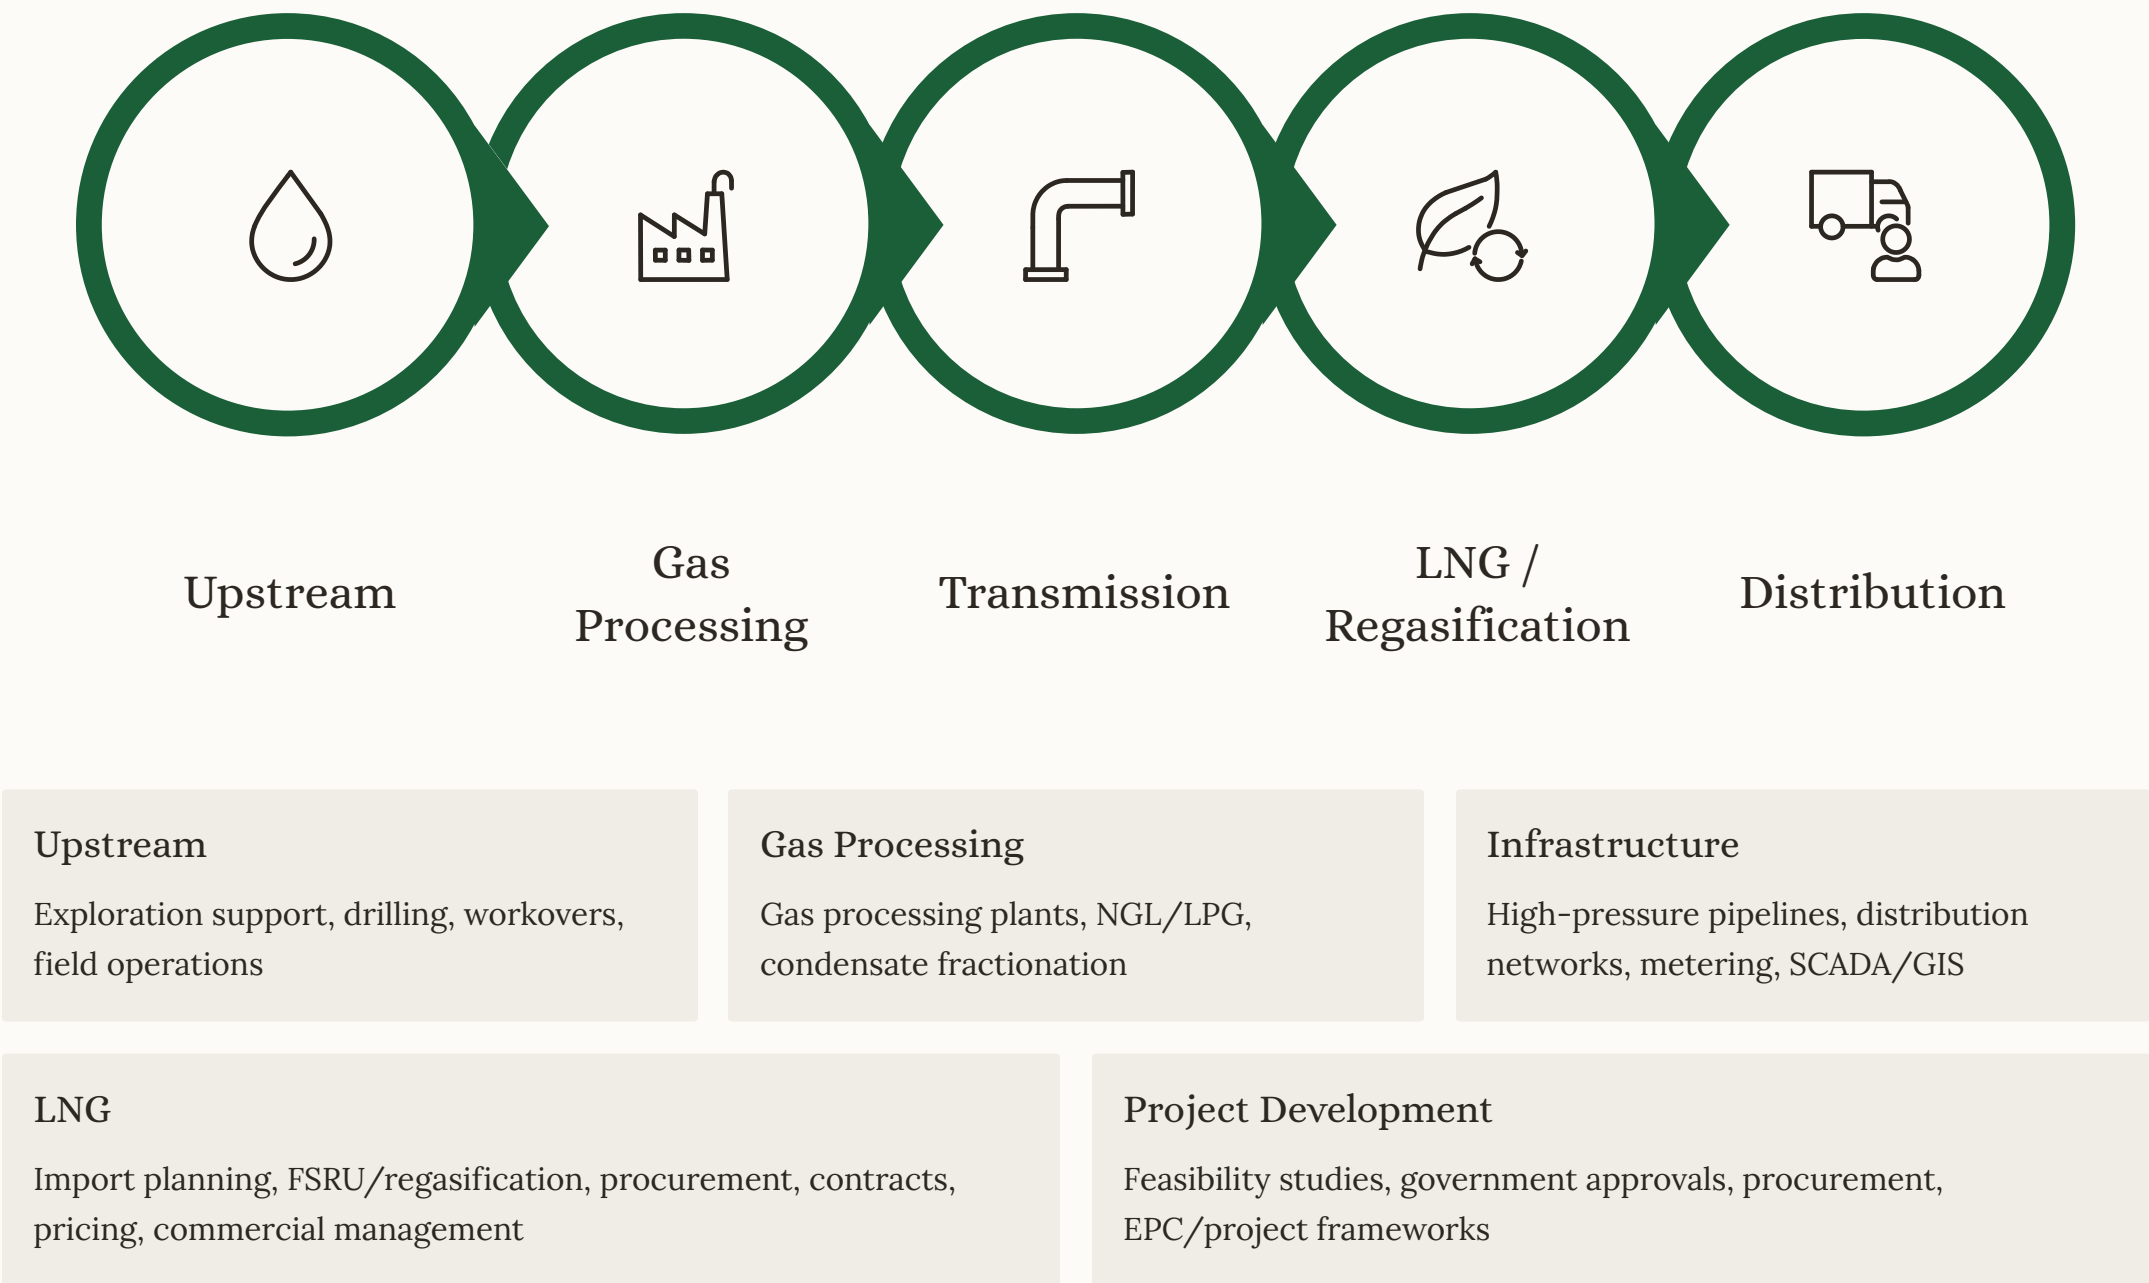

RMM provides a complete on-the-ground operational interface — enabling international energy companies to navigate Bangladesh's state-controlled gas sector effectively and efficiently.

Government & Institutional Interface Coordination with Petrobangla, BAPEX, BGFCL, SGFL and relevant authorities	Project & Administrative Support Permits, documentation, approvals and local project coordination	Local Supply Chain Selection, coordination and supervision of local logistics and service providers	Third-Party Engineering Coordination with specialist oilfield service companies including Schlumberger
Drilling Logistics Rig mobilisation/demobilisation, drilling machinery and materials-handling support	Regulatory & Operational Support Visas, work permits, NBR clearance and local compliance requirements	Stakeholder Management Coordination with local communities and relevant authorities	Project Troubleshooting Resolution of operational and local-interface issues affecting project execution

Integrated Gas & LNG Capabilities

RMM's capabilities extend across the full natural gas value chain — from upstream exploration and drilling through to LNG import, regasification and commercial operations.

❑ **RMM's strength is the combination of local execution capability and senior-sector expertise across the full gas value chain.**

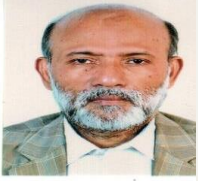

RMM Power and Energy Limited

Your Strategic Energy Partner in Bangladesh

Level-4, Suite-402, Concord Tower, 113 Kazi Nazrul Islam Avenue, Dhaka-1000, Bangladesh

Senior Energy Leadership Team

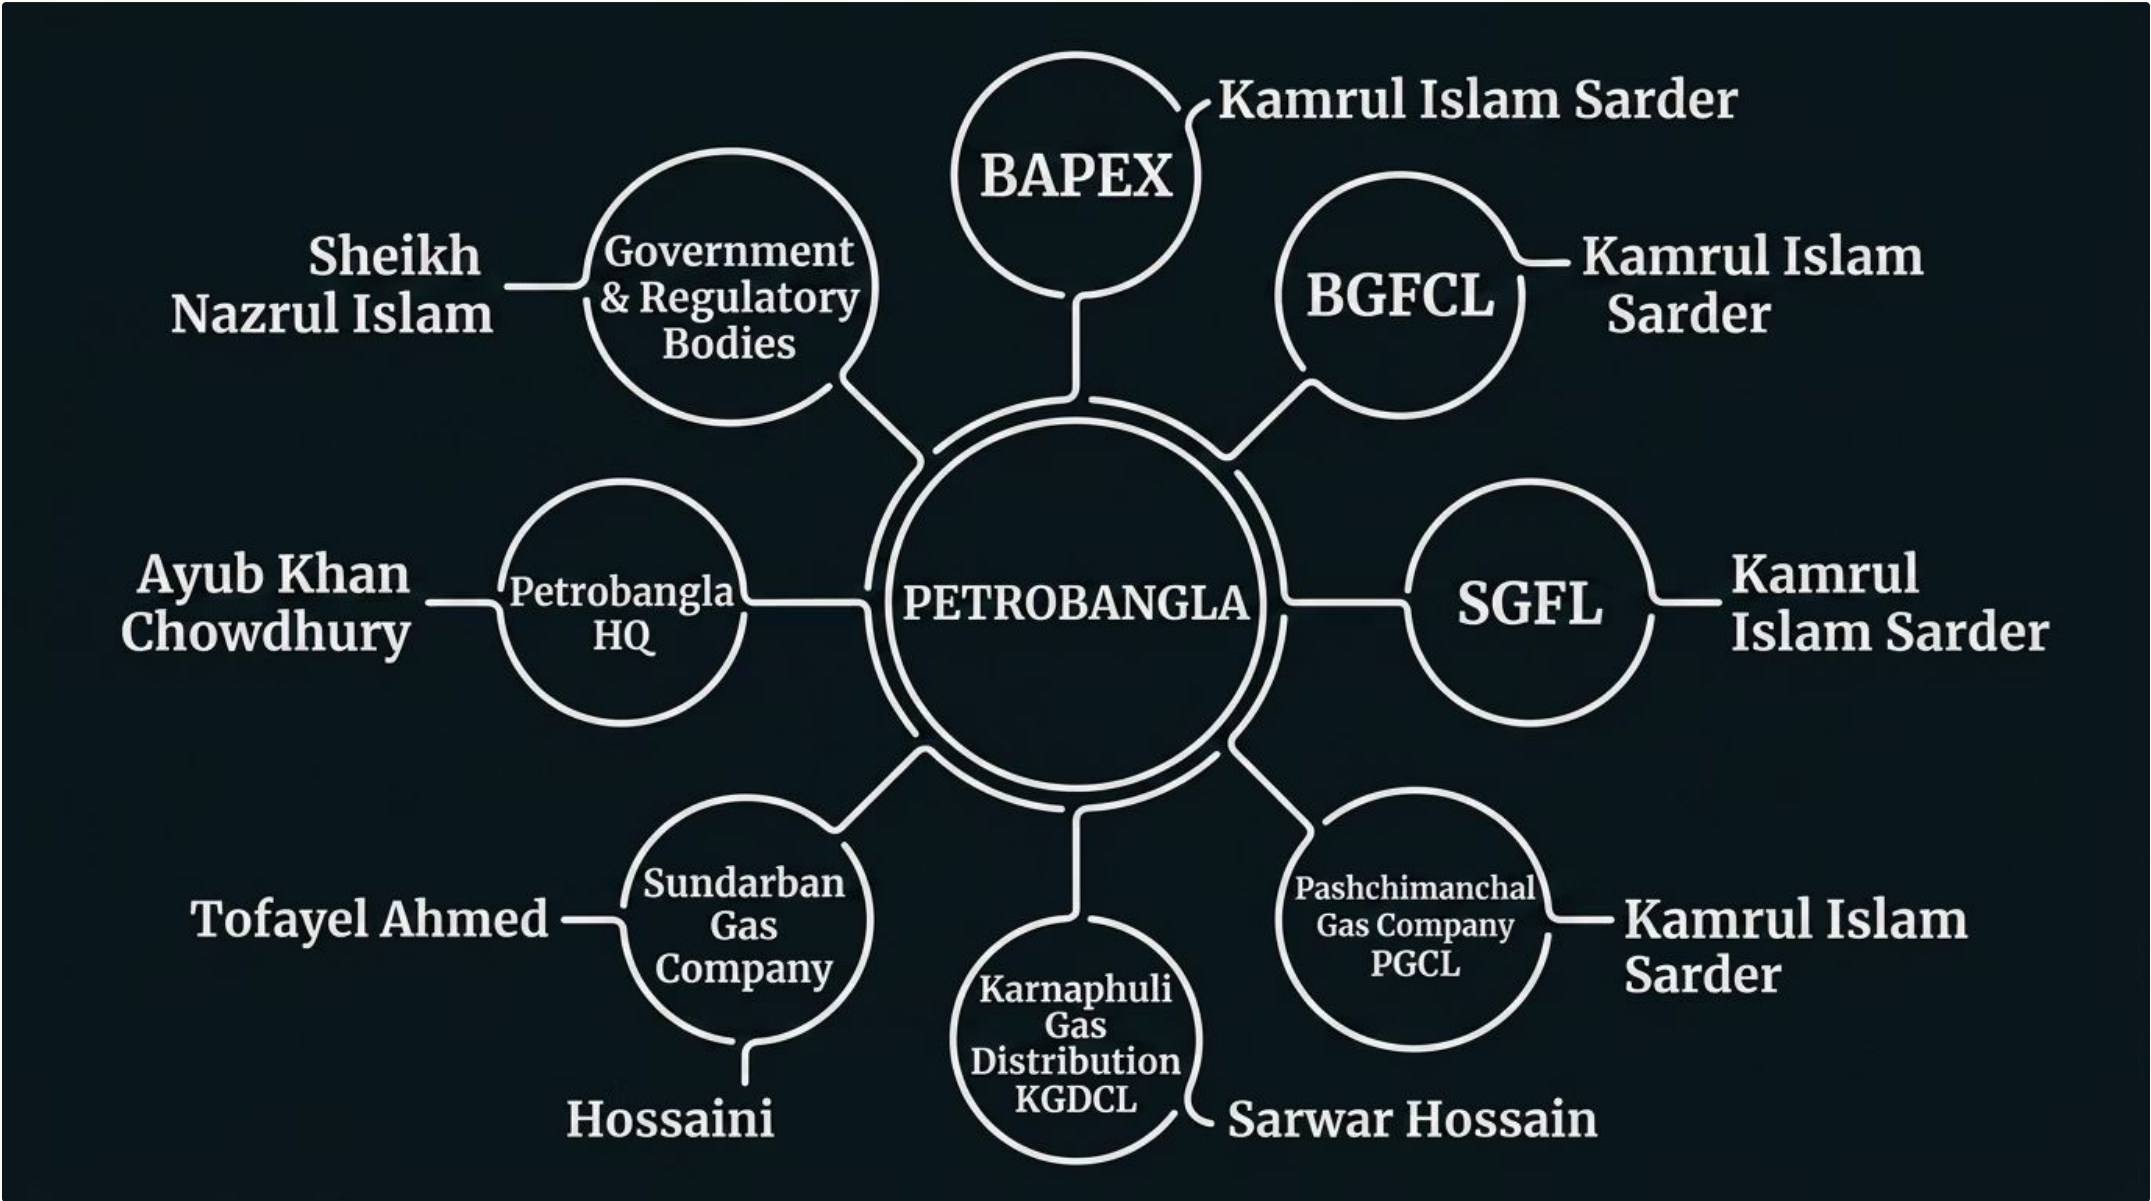

RMM's project team comprises senior professionals with career spanning the full spectrum of Bangladesh's gas sector—from upstream operations to LNG procurement and corporate governance.

1		Md. Ayub Khan Chowdhury, MSS in Public Administration, 40 years of work experience CEO Former Director, – Petrobangla Key Focus Areas: LNG INFRASTRUCTURE DIVISION UPSTREAM CONTRACT NEGOTIATION WITH INTERNATIONAL GAS COMPANIES Email: mak.chowdhurypb@gmail.com , Cell no: +88-01777717629
2		Engr. Md. Kamrul Islam Sarder, B.Sc Engineer, 36 years of work experience PROJECT DIRECTOR Former Managing Director – Pashchimanchal Gas Company · Key Focus Areas: GAS FIELD DEVELOPMENT DRILLING & WORKOVERS TRANSMISSION PROJECT COORDINATION Email: kisarder@rmmpower.com , Cell no: +88-01713301011
3		Engr. Md. Sarwar Hossain, B.Sc Engineer, 36 years of work experience DEPUTY PROJECT DIRECTOR Former General Manager, Engineering Services – Karnaphuli Gas Distribution Company Key Focus Areas: PIPELINE ENGINEERING GAS DISTRIBUTION LNG PROCUREMENT REGASIFICATION Email: nakibam12@rmmpower.com , +88-01877335789
4		Tofayel Ahmed, M.Com (Accounting), over 30 years of leadership experience PROCUREMENT & FINANCE Former MD – Sundarban Gas Company · Former GM (Accounts) – Petrobangla Key Focus Areas: LNG ACCOUNTING INTERNATIONAL PROCUREMENT SPOT TRADING GAS PRICING Email: tofayel@rmmpower.com , Cell no: +88-01754460261
5		Sheikh Nazrul Islam, B.Sc Engineer, 37 years of work experience PROCUREMENT & GOVERNANCE Ex- Chief of Procurement, Government of Bangladesh Key Focus Areas: PUBLIC PROCUREMENT CONTRACT MANAGEMENT PROJECT MONITORING Email: sheikhnazrul@gmail.com , Cell no: +88-01552644817

Along with them, there are 15 young Executives in the business development activities.

Decades of Experience Inside Bangladesh's Gas Sector

RMM's senior team brings direct operational, managerial, planning, financial and procurement experience from across the Petrobangla ecosystem – providing institutional knowledge that cannot be replicated by an external adviser.

- Petrobangla
Strategic planning, LNG import, financial management – *Ayub Khan Chowdhury · Tofayel Ahmed*
- BAPEX · BGFCL · SGFL
Upstream exploration, drilling, field development, gas field operations – *Kamrul Islam Sarder*
- Pashchimanchal Gas Company Limited
Senior corporate management, gas infrastructure – *Kamrul Islam Sarder*
- Karnaphuli Gas Distribution Company Limited
Pipeline engineering, distribution, LNG – *Sarwar Hossain*
- Sundarban Gas Company Limited
Corporate management, LNG/FSRU, procurement – *Tofayel Ahmed*
- Government & Regulatory Bodies
Project approvals, procurement compliance, World Bank standards – *Sheikh Nazrul Islam*

LNG Market, Procurement & Regasification Expertise

The RMM senior team brings direct, hands-on experience of Bangladesh's LNG import infrastructure and the institutional processes governing LNG procurement and supply — directly relevant to an international LNG company evaluating Bangladesh market entry.

LNG Supply Planning

Long-term gas demand assessment and LNG import planning at the national level

LNG Procurement

International LNG procurement and spot-market experience —
Tofayel Ahmed, former MD Sundarban Gas Company

FSRU & Regasification

Practical knowledge of Bangladesh's FSRU/regasification infrastructure and operational interface

Contracts & Pricing

Experience in gas/LNG contract structures, pricing mechanisms and commercial negotiation

Government Coordination

Understanding of project approval and decision-making processes within Bangladesh's energy sector

Infrastructure Integration

Gas pipelines, distribution systems and integration of LNG supply into the domestic gas network

Local Procurement & Project Governance Capability

RMM can support an international investor or operator at every stage of the project cycle in Bangladesh – from initial opportunity identification through to operational commissioning and ongoing support.

01	02
Opportunity Identification Market intelligence, demand assessment, stakeholder mapping	Feasibility & Project Structuring Technical and commercial feasibility, project frameworks
03	04
Government Interface Regulatory approvals, institutional coordination, MoU/agreement support	Tender / Procurement Tender documentation, evaluation, World Bank and international procurement standards
05	06
Contracting Contract execution, letters of credit, import and port procedures	Mobilisation Logistics, rig/equipment mobilisation, local supply chain activation
07	08
Execution On-the-ground project management, third-party coordination, compliance monitoring	Commissioning & Operational Support Handover, regulatory sign-off, ongoing local support

Why RMM

1. Proven International Partnership

Demonstrated ability to support a major Russian energy company operating within Bangladesh's state-controlled gas sector — from government coordination to drilling logistics and project execution

2. Institutional Knowledge

Senior professionals with decades of direct experience across Petrobangla and its operating companies — BAPEX, BGFCL, SGFL, KGDCL, Sundarban Gas and Pashchimanchal Gas

3. Local Execution

Proven capability to coordinate logistics, government authorities, contractors and stakeholders on the ground in Bangladesh

4. Gas & LNG Expertise

Capabilities extending from upstream drilling through pipelines, gas processing, LNG import, FSRU operations and commercial management

5. Project Access & Delivery Support

Deep understanding of Bangladesh's project-development, procurement and regulatory approval environment

A single local platform connecting international energy expertise with Bangladesh's gas-sector institutions, infrastructure and execution environment.

Potential Cooperation Framework

RMM is positioned to provide comprehensive local support to an international LNG and natural-gas partner across the following areas of engagement:

International Energy Partner

Global LNG portfolio · Technology & capital · International project expertise · Supply capabilities · Commercial structuring

Areas of Cooperation

- LNG Market Development

Market intelligence, demand assessment, local stakeholder engagement
- LNG Supply & Import Projects

Local support for LNG supply opportunities and import/regasification projects
- Government & Petrobangla Interface

Coordination and navigation of relevant institutional and regulatory processes

RMM Local Platform

Bangladesh market knowledge · Petrobangla-sector access · Government interface · Senior gas-sector professionals · Local execution

- Gas Infrastructure

Pipeline, distribution, processing and associated infrastructure opportunities
- Project Development

Feasibility, local project structuring, procurement and implementation support
- Local Partner Platform

Logistics, administration, stakeholder management and project execution support

International Capability. Local Execution.

What an International Energy Company Brings

Global LNG & gas portfolio	Technology & innovation
Capital & project finance	International project expertise
Global supply capabilities	

What RMM Brings

Bangladesh market knowledge	Petrobangla-sector experience
Government & institutional interface	Senior gas-sector professionals
Local project execution	Procurement & contracting knowledge
Logistics & stakeholder coordination	

Together: Bankable Energy Projects in Bangladesh
